SUMMARY

Software Engineer with hands-on experience in Python, Object-Oriented Programming, REST API development, SQL, Git, and AWS. Completed a 3-month full-stack development internship (Java, Spring Boot, Angular, MySQL) that broadened exposure to enterprise application development and full-stack engineering practices.

EDUCATION

RNS Institute of Technology — Bangalore, India

Bachelor of Engineering in Information Science and Engineering | 2021 – 2025 | CGPA: 7.34

ASC PU College — Bangalore, India

12th PCMB | 2019 – 2021 | 73.33%

Jnana Vahini Vidya Samsthe — Bangalore, India

10th SSLC | 2019 | 78.56%

INTERNSHIP EXPERIENCE

EduBridge Learning Pvt. Ltd. — in association with Capgemini

Java Full Stack Developer Intern | 3 Months (concluded Jul 2025)

- Completed an industry-oriented Java Full Stack Development program (Capgemini–EduBridge, Anirban Rural Welfare Society initiative), scoring 70% (Grade B+).
- Built a full-stack Employee Management System using Spring Boot 3 (Java 17), Angular, and MySQL, applying OOP and REST API design principles.
- Developed RESTful CRUD APIs (GET, POST, PUT, DELETE) with Spring Data JPA/Hibernate, including custom exception handling and a normalized MySQL schema for employee records.
- Built responsive Angular modules for admin login, employee listing, add/update forms, and detailed views, consuming the backend REST API with CORS configured for cross-origin access.

SKILLS

Programming Languages: Python, Java

Core: Object-Oriented Programming, REST API Development, SQL, Git, HTML, CSS, JavaScript

Frameworks (Internship Exposure): Spring Boot, Angular

Cloud & Tools: AWS (S3, EC2), MySQL Workbench, Jupyter Notebook, VS Code, GitHub

CERTIFICATIONS

- Certification Program in Java Full Stack Development — EduBridge Learning Pvt. Ltd. (in association with Capgemini) — Jul 2025, Score: 70% (B+)
- Programming Fundamentals using Python - Part 1 — verify.onwingspan.com
- Programming Fundamentals using Python - Part 2 — verify.onwingspan.com
- The Complete Web Development Training Courses | Web Design Courses — verify.onwingspan.com
- AWS Academy Graduate - AWS Academy Cloud Foundations — hostlink.site/0Qt4Wb

PROJECTS

Weather App | 08/24 – 09/24

- Integrated OpenWeatherMap REST API to retrieve real time weather data.
- Tools/Frameworks: HTML, CSS, JavaScript.
- Result/Impact: Built a responsive weather application using JavaScript and external APIs. Applied object-oriented programming principles to structure application components.

Note-Making App | 04/23 – 05/23

- Built a Note-taking web application using AngularJS enabling CRUD operations with responsive UI and modular components.
- Tools/Frameworks: AngularJS, HTML, CSS, JavaScript.
- Result/Impact: Improved productivity and task management through a clean, user-friendly interface.
